Hi Everyone,

As promised to you at an earlier date, I am forwarding our calculation of your 2015-16 appropriation limit (attached). For most districts, the only difference between this year's limit and last year's limit is the annual percent change for California Per Capita Personal income (3.82%) and for local population growth (0.84%).

For population growth, we compared growth within Sonoma County to growth within the unincorporated area of the County and selected the area with the most growth.

Your district is required by Proposition 111 to choose certain methods by recorded vote of your

Board to increase its limit from year to year. If you choose to use the simple version we have calculated, your Board must adopt the limit and identify the methods used above as factors used to calculate the district's limit.

The attached calculations assume that the approved limit that you provided to us for FY 14-15 has not been increased to cover voter approved special taxes. **If your FY 14-15 limit included increases based on voter approved special taxes or you used an alternative method to calculate your district's limit, you should not use these calculations to determine your FY 15-16 limit.** Please send us a copy of your Board approved appropriation limit, including methods used to determine the limit chosen. For those districts that have obtained voter-approved special tax exemptions, I can assist you with that calculation separate from this process based on the method that has been recommended from our legal counsel.

If you have any questions or need assistance, please call me at 565-3292.
